

GILI TAL

***Berlin (Sunset version), 2014***

Edition of 30

Dimensions variable

From £250 each (+ postage and packaging)

(Price on request due to the unique nature of each blind)

Gili Tal has produced a limited edition of 30 roller blinds printed with a photograph she took of the Berlin skyline at sunset, part of a series of curtains and blinds that she is currently working on. The photograph is taken from the fifth floor car park of Neukölln Arcaden, a shopping centre close to the artist's apartment. By inserting a more available and personal view into a realm otherwise populated by familiar yet potent clichés, the series considers the appropriation of city views in the marketing of luxury properties and how this relates to concepts of ownership. Each blind is made to measure according to individual specifications.
