"The shared action of concentrating on basic pieces of everyone

That a person had just broken into

Broadcasting relatedness, The news on being epic,

Love-tripping / man-made intimacy

The history of the proud flesh, possibility-drawing, the miracle of fiction,

Fright-riding, chance-riding & distance-shortening raptures.

All the while being surrounded by the advantage of not calling it anything.

Congratulations on your genetic makeup

All behaviour is communication.

There is no native desire"
